

## PRESS RELEASE

### **Danzer Completes Their European Veneer Service Offering**

Czech splicing company Furniertechnik Raspenava becomes part of Danzer Veneer Europe

**Dornbirn, Austria, January 2016** – Hardwood specialist Danzer is integrating Czech splicing company Furniertechnik Raspenava into their European veneer operations. The integration will have no impact on existing customers or employees. Both parties agreed to not disclose details of the transaction. Danzer is now able to offer their European customers the choice between raw veneers and spliced faces. Furniertechnik Raspenava's splicing operations are very flexible with the ability to efficiently fulfil small, customer specific orders. They are also experts for splicing of thick cut veneers.

#### **About Furniertechnik Raspenava**

Furniertechnik Raspenava s.r.o. has extensive experience in splicing veneer and serves customers mainly in Central and Northern and Europe. The plant was built in 1994; the technical equipment has been continually modernized. It is now one of the leading veneer processing plants in the Czech Republic. The company employs approximately 70 people and produces approximately 160.000 m<sup>2</sup> spliced faces every month: 50% of the volume for furniture, another large part for doors and panels; flooring lamellas and edge banding complete the portfolio.

#### **About Danzer**

Danzer is a leading quality hardwood company. The company employs approximately 2,500 employees and services customers from 21 sales offices worldwide. Founded in 1932, the family oriented company is managed by a member of the third generation. Danzer owns and manages forests sustainably and produces veneer, timber and innovative value-added wood products for decorative purposes. Danzer products are being used in high-quality furniture, automobiles, interior architecture and other applications.
