Procuring a consistent supply of high quality rift cut veneer at a competitive price is often challenging. Danzer has developed a reliable and cost-effective solution.

**DANZER LINEA**

Made from the real species, you get what you see, consistent high quality veneer. As a cut-to-size product, Danzer Linea has an excellent yield, compared to a comparable rift cut veneer.
real
attractive
consistent
cost-effective
All Danzer Linea products can be milled, stained and lacquered like any veneer of the respective species. Due to the special glue used for the manufacture of our veneer, we recommend not exceeding 130 degrees Celsius for further processing.
