

MOTHER OF PEARL

PRODUCT SPECIFICATION

Mother of Pearl is a technical cut-to-size veneer with a non-directional, marble-like look. Carefully selected veneer elements are cut into planks, artfully combined and formed into new surfaces. Each sheet is produced individually, resulting in a distinctive composition that makes every piece unique.

This remarkable veneer captures depth and light reflections reminiscent of mother of pearl. Subtle variations in structure underline the individuality of every sheet, ensuring each project stands out with its own unmistakable expression.

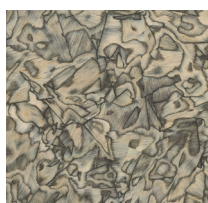

Made from FSC®-controlled wood off-sized veneer sheets, Mother of Pearl is offered in fixed dimensions with a fleece backing and sanded surface P150.

STANDARD DIMENSIONS

LENGHT	1,400 mm	(4.6')
WIDTH	360 mm	(1.2')
THICKNESS	(~0.55 mm)	(~0,021")

SPECIES ON STOCK (OTHERS BY REQUEST)

European Birch

PROCESSING INFORMATION

Mother of Pearl can be milled, stained and lacquered like any veneer of the respective species. The material is validated according to automotive standards. The non-directional grain structure provides maximum yield.
