

VINTERIO

PRODUCT SPECIFICATION

Vinterio is a cut-to-size technical veneer made from high-quality hardwood lumber, offering a random-plank surface with the authentic look of solid wood. Vinterio results in a balanced, consistent aesthetic that highlights the intrinsic character of the respective wood species.

Vinterio is a versatile product. It's natural elegance makes it suitable for large surface applications as well as small ones. As a made-to-stock product, Vinterio is easy to combine and reliable to re-order. This is particularly important for large projects where continuity and consistency are essential.

Two design options are available:

Vinterio Classic:

Wider planks for a traditional, natural, and earthy appearance.

Vinterio Superior:

Narrower planks for a more refined, elegant, and sophisticated look. Other options on request, see website.

Made from **FSC®-controlled wood**, Vinterio is available in several true species and fixed dimensions.

STANDARD DIMENSIONS (CUSTOM DIMENSIONS BY REQUEST)

LENGHT	2,600 mm	(8.5')
	3,100 mm	(10.1')
WIDTH	650 mm	(2.1')
THICKNESS	(~0.6 mm)	(~0,028")
PLANK WIDTH (CLASSIC)	18-23 mm	(0.75-0.9")
PLANK WIDTH (SUPERIOR)	8-13 mm	(0.35-0.5")

PROCESSING INFORMATION

All Vinterio products can be milled, stained and lacquered like any veneer of the respective species. We recommend using temperatures not exceeding 130°C (266 F) for further processing. Sheets are provided in raw form without any paper/phenolic backing.
