

DANZER LINEA:
NATURAL
BEAUTY,
CONSISTENT
ELEGANCE

Linea delivers the natural beauty of real wood — with none of the sourcing stress or quality inconsistencies.

Engineered from genuine wood species, with no fillers or substitutes, Linea is a reliable alternative to scarce and costly A-grade rift cut veneers. It provides elegant, repeatable results across a range of finishes and is the smart, sustainable choice for brands that demand both authenticity and efficiency.

Genuine wood for truly elegant design

A reliable alternative to scarce and expensive rift cut A-grades, without the rising costs or availability challenges.

Designed by nature, not chemistry

True wood veneer with no chemicals – a responsibility choice that maximizes the use of valuable natural resources.

Real wood, consistent results

A repeatable look that retains its natural feel making specifying, handling and selling easy.

Reliable quality, continuous supply

Predictable yields and consistent availability reduces costs and risk across production, saving time and reducing stress and hassles.
