

VINTERIO
BY DANZER
URBAN LUXURY.
MADE
CONSISTENT.

Vinterio combines the charm of solid wood with the confidence of a veneer – engineered for beauty, reliability, and ease.

Vinterio brings together the warmth of solid wood, the efficiency of engineered surfaces, and the values of sustainability.

Crafted from expertly sliced natural wood, it maximizes material use while delivering consistent, repeatable results across a range of applications. Perfect for cabinetry, paneling, wall systems, furniture, and interior architecture – Vinterio is easy to process, simple to specify, and always visually powerful.

Crafted From Real Wood Veneer

Created from carefully selected sliced veneer, Vinterio offers the authenticity and texture of true wood – never synthetic, never imitated.

Striking, Repeatable Patterns

An engineered layout creates a bold, consistent design with natural variation – ideal for scalable production and seamless installation.

Waste Less, Deliver More

Vinterio maximizes the use of high-quality raw materials and reduces waste of precious natural resources, supporting responsible forestry.

Versatile And Production-Ready

Available in multiple species and formats to suit a wide range of manufacturing setups and design specifications.
