VOC Emissions	Not tested	VOC Content	N/A
Sustainable forestry	Forest Stewardship Council (FSC) - Chain of Custody (COC)		

The HPD Standard is solely a declaration of product content and direct health hazards associated with exposure to its individual contents. It is not a full assessment of environmental impacts from the life cycle of this product. It is not an assessment of risks associated with actual use of the product. It does not address the potential health impacts of substances used or created during manufacture that do not appear in the final product as residuals, nor substances created during combustion or other degradation processes.

This Health Product Declaration was generated following the requirements of the noted Standard version and is valid for a total of three years after date of issue or three months after a substantive change of product contents occurs. Users should verify that this Health Product Declaration is compliant with the most current version of the HPD Standard. Accuracy of claims made in this Health Product Declaration is the sole responsibility of the listed manufacturer and certifier (if applicable). The HPD Collaborative does not warrant any claim made herein, explicit or implicit. The HPD Standard is an “open standard” developed and managed by the HPD Collaborative, a nonprofit organization. For more information, visit hpdcollaborative.org.

All ingredients must be assessed for health warnings against Priority Hazard Lists, regardless of disclosure level.

Priority Hazard Lists and information on the GreenScreen Benchmarks can be found at www.hpdcollaborative.org/hazardlists.

NOTES

100% of all intentionally added ingredients have been reported to the HPDC using the HPD Builder. However, two ingredients in the glue is not recognized in the v1 HPD builder and hence has not been added to the form. These ingredients constitutes 0.0021% of the total product, which is less than 1000ppm. Per HPDC's protocol for unrecognized ingredients, there are no hazards associated with the ingredient. In addition, the fuming process has not been addressed on this HPD. Clarification was requested of HPDC in January 2015 regarding the fuming process and we will update this HPD when a response is received. Wood Species available in this product -- Am Walnut, Am White Oak, European Birch, Larch
