SUMMARY DISCLOSURE

The content of this product was assessed for health hazard warnings as required using Pharos

Residuals Disclosure: Measured 100 ppm (ideal), Measured 1000 ppm, Predicted by process chemistry, As per MSDS (1,000 & 10,000 ppm), Not disclosed, Other.
Full Disclosure of Intentional Ingredients: Yes, No
Full Disclosure of Known Hazards: Yes, No
Disclosure Notes: 100% of all intentionally added ingredients have been reported in this HPD. Because some of the ingredients constitute only a very small percentage of ingredients, the HPD form has rounded the numbers down to 0 resulting in ingredient percentages that do not sum to 100%. Even so, 100% of ingredients are reported Residuals are documented as predicted by process chemistry using the Pharos tool. No Benchmark 1 hazards were found. However, Pharos identified one substance in the product (POLY[OXY(METHYL-1,2-ETHANEDIYL)], .ALPHA.-BUTYL-.OMEGA.-HYDROXY) that has not been researched for possible residuals.

Contents in Descending Order of Quantity

Cellulose , Undisclosed (Non Hazardous polymer) , Undisclosed (Non Hazardous polymer) , Undisclosed (Non Hazardous polymer) , Undisclosed (Non Hazardous polymer) , Undisclosed (Non Hazardous polymer) , Undisclosed (Non Hazardous polymer) , Undisclosed (Non Hazardous polymer) , Undisclosed (Non Hazardous polymer) , Undisclosed (Non Hazardous polymer) , Undisclosed (Non Hazardous polymer) , DECAMETHYLCYCLOPENTASILOXANE (D5)

Hazards: PBT (Persistent Bioaccumulative Toxic), Cancer, Gene Mutation, Development, Reproductive, Endocrine, Respiratory.
Highest concern GreenScreen score - List Translator Benchmark 1: Neurotoxicity, Land toxicity, Mammal, Physical hazard, Skin or Eye, Global warming, Aquatic toxicity, Ozone depletion, Multiple, Unknown.

Total VOC Content: Material (g/L) N/A, Regulatory (g/L) N/A.
Does the product contain exempt VOCs? N/A, Yes, No
Are there VOC-free tints available? N/A, Yes, No

The HPD Standard is solely a declaration of product content and direct health hazards associated with exposure to its individual contents. It is not a full assessment of environmental impacts from the life cycle of this product. It is not an assessment of risks associated with actual use of the product. It does not address the potential health impacts of substances used or created during manufacture that do not appear in the final product as residuals, nor substances created during combustion or other degradation processes.

This Health Product Declaration was generated following the requirements of the noted Standard version and is valid for a total of three years after date of issue or three months after a substantive change of product contents occurs. Users should verify that this Health Product Declaration is compliant with the most current version of the HPD Standard. Accuracy of claims made in this Health Product Declaration is the sole responsibility of the listed manufacturer and certifier (if applicable). The HPD Collaborative does not warrant any claim made herein, explicit or implicit. The HPD Standard is an “open standard” developed and managed by the HPD Collaborative, a nonprofit organization. #### NOTES

100% of all intentionally added ingredients have been reported to the HPDC using the HPD Builder. However, one ingredient in the glue is not recognized in the v1 HPD builder and hence has not been added to the form. This ingredient constitutes 0.002% of the total product, which is less than 1000ppm. Per HPDC's protocol for unrecognized ingredients, there are no hazards associated with the ingredient. In addition, the fuming process has not been addressed on this HPD. Clarification was requested of HPDC in January 2015 regarding the fuming process and we will update this HPD when a response is received.
