

AFRICAN  
EBONY FSC®

UNIQUE  
DURABLE  
EXCLUSIVE  
SUSTAINABLE

The most famous Ebony species is the currently very rare Macassar Ebony, named after the harbor city of Macassar in Sulawesi Island (Borneo). From well managed FSC® certified forest concessions in Central Africa, there is a highly decorative alternative with a FSC 100% certificate.

### **AFRICAN EBONY FSC® certified**

Each log has a unique contrasting black and white pattern, suitable for exclusive designs.

The mark of  
responsible forestry

FSC® C017329
