

CUSTOM SOLUTIONS

Fulfilling extravagant customer requests in wood design can be technically challenging. With our team of experts for Danzer 3D-veneers, we offer

DANZER CUSTOM SOLUTIONS

for a broad range of applications, from show cars to demanding details in interior design. Best to discuss your ideas with our experts in an early project phase. Based on your first drafts and drawings, we will develop and realize the right solution with you.

OUR COMPETENCES

- Coating of curved shapes (e.g. tubes)
- Grain structures that follow a curve or geometry of parts like table surfaces, 2D or 3D-veneer coatings of various substrates (e.g. metal, plastics, glass fibre reinforced plastics, MDF and others)
- Complete production of components (coating with veneer or multi-ply shapes)
- Tooling
