

ROUGH CUT

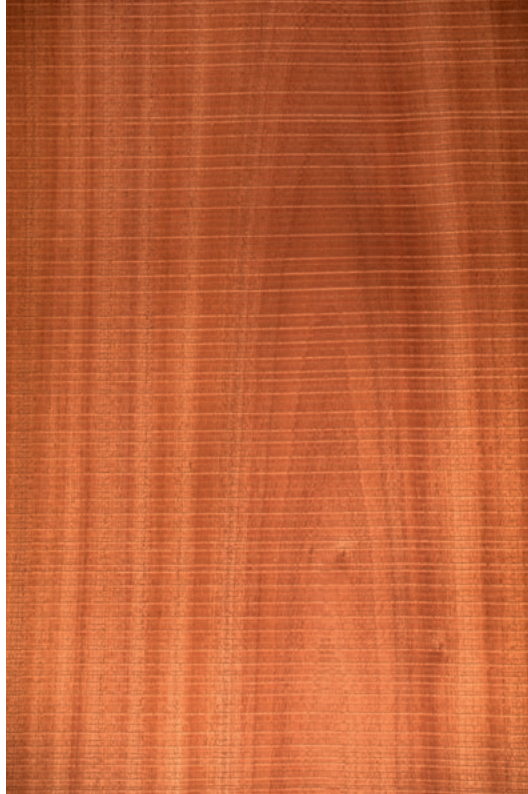

RUSTIC
SOLID LOOKING
CONSISTENT
RELAXED

People love to feel wood. That is why we at Danzer have added veneer with a special touch and feel to our offerings.

DANZER ROUGH CUT

Like raw, freshly sawn lumber, the veneer exhibits a slightly rough surface. That makes it distinct from non-wood surfaces and allows for rustic, relaxed designs. Backed by the industrial partner and process of Danzer, a consistent availability of any desired quantity is assured.
